Product information | TECHNICAL DATA SHEET

WEPRO Water-Based Paint. Solid and metallic colors. High-quality water-based formula with bio-based resin.
400 ml.

GENERAL DESCRIPTION

High-opacity water-based multi-surface paint. With a huge range of colors and a low-odor formula, this paint is ideal for both indoor and outdoor restoration projects. Designed with bio-based resins and a more environmentally friendly formula*.

*17% reduction in VOC content (lower VOC levels than solvent-based aerosols).

CHARACTERISTICS

- Easy-paint technology: smooth, drip-free valve.
- Highly resistant to outdoor conditions once fully dry.
- Fast-drying.
- Good coverage.
- Low odor.
- Good adhesion.

INSTRUCTIONS FOR USE

- Shake the aerosol thoroughly before use, for about one minute after hearing the mixing ball.
- Apply to clean and dry surfaces. On rusted metal surfaces, first remove the corrosion using a wire brush. On plastics and polyester, first apply an anchoring coat.
- Apply in thin layers for the best results. Recoat after 30–45 minutes with the same paint. This will vary depending on the thickness of the coat applied.
- Do not apply too much at once to prevent sagging.
- Turn the aerosol upside down to purge the valve after use. If the cap gets clogged, replace it with a new one.
- Do not apply to equipment or devices that are connected to an electricity supply, and use in well-ventilated areas.
- Request safety data sheets.

PHYSICAL CHARACTERISTICS

Binder type:	PU.
Color:	See chart
Shine:	Matte <10, Satin 20 – 40, Gloss >70
Touch-dry (ASTM D-1640 ISO 1517):	45 min - 60 min*1
Fully dry (ASTM D-1640 ISO 1517):	72 hours
Coat thickness when dry (ASTM D-823 ISO 2808):	15 µm/layer
Recoat time:	after 45 min
Theoretical coverage (continuous painting):	Up to 3.25 m² (depending on the color)
Product shelf life:	(with proper storage) 5 years
Application conditions:	Minimum ambient temperature: 8ºC
	Surface temperature: 5ºC – 35ºC
	Max. humidity 85% R.H.P

*1 This will vary depending on the thickness of the coat and the type of finish.

APPLICATIONS

Ideal for DIY and decoration projects on a variety of surfaces: wood, metal, glass, timber, plaster, terracotta, stone, fabric, paper, papier-mâché, and styrofoam.
It can be applied directly without the need for a primer.
On difficult surfaces, carry out a test application and/or apply a primer.

Specially designed for quick and easy customization of small furniture, everyday decorative objects like picture frames, flowerpots, vases, furniture, lamps, shelves, and more.
